

*But the journey today has no cliffs to scale
Nor genuine cities and their geographic tales
It's a journey, a trip towards dreams made real
which can be both touched and yet which I feel
Painted by men from distant lands
precious jewels created by hand
Ancient emotions that still speak today
they are old, but now I want to hear what they say*

REMAINING BECAUSE ART IS A MEETING WITH NO CONCEPT OF TIME

The Book

Remaining is a large illustrated volume that Gek Tessaro has dedicated to Art. It is an evocative and charming journey through a series of museums, an example of how it is possible to look at all the details of a work of art, examine the colours and shades, and finally “discover it” by devoting all the time to it that it deserves.

Line by line he tells the story of a series of apparently impossible meetings with men and women who lived centuries ago, but who are still here now, waiting for those who, in their turn have decided to listen to them.

GEEK TESSARO is a master artist, author and the illustrator of numerous children's books as well as the winner of several awards and prizes, including the 2010 Andersen Award for Best Complete Author, and the 2011 National Award “Born to Read”.
