TO TELL TO THE YOUNGEST THE COURAGE AND STRENGHT OF KNOWLEDGE

GALILEO GALILEI

THE BOOK

The series opens with a novel about the unforgettable and revolutionary figure of Galileo Galilei, who taught Mathematics at the University of Padua from 1592 to 1610. In this city Galileo wrote that he had spent the best 18 years of his life, and that it was precisely from the windows and from the garden of his Paduan residence that, pointing to the sky his telescope, he made the first important astronomicals discoveries. Those that then led him to the revolutionary theories for which he is famous and for which he was condemned.

THE AUTHORS

SABINA COLLOREDO, **novel**.
One of the most important contemporary authors of books for children and teenagers. She wrote historical and mythological novels, female biographies and current stories, many of them translated in several languages.

SONIA MARIA LUCE POSSENTINI, **illustrations**.
Painter and illustrator, she took part to several exhibitions and collaborates with many of the most important publishing houses. With her poetic and evocative style, she is now appreciated worldwide. In 2017, she won the Andersen Award for best illustrator.

Series On the wings of freedom

This new series of historical novels for kids, engaging and innovative, tells stories about important people, some of them famous and others less known, whose lives have intertwined with the history of Padua and its prestigious university.
Extraordinary protagonists whose stories have been characterized by freedom of thought, desire of discovery and love for knowledge.
