

## MONNA LISA'S CHARM

Leonardo and the fusion's mystery

### THE BOOK

It is the pen of one of the greatest Italian authors writing here. Here we're supposed to find the solution to The Mystery among the mysteries: who is the woman portrayed as Monna Lisa, by Leonardo da Vinci? But this deep mystery is also linked to a further little mystery, regarding some people and places connected to this famous painting.

This historical novel is set at the end of 1400, between Milan (where Leonardo is attending his great Last Supper wall painting) and the Valtrompia (at that time, so well-known for its excellent iron production...). This is the result of a jealously hidden mystery...
