

THE SAME AUTHORS OF THE GREAT SUCCESS "BRAVERY TO BE BRAVE"

THE SERIES

"Growing up with no collateral effects" is conceived and supervised by Domenico Barrilà.

This innovative series aims to help children to solve their self-esteem troubles; the series wants to provide children with the instruments to go over matters without damaging other people. A must-have educational resource to make children feel self-confident and an active part of civil consciousness.

Other titles from the same series:
BRAVERY TO BE BRAVE
How to become good adults and be proud of it.

IT'S BRAVE TO BE ME

To get adult by feeling ourselves without aping other people

THE BOOK

Page after page, the characters speak about the big issue of the children's identity: in order to be themselves, children need to be brave. This book starts from children's fear to be cut out by the friends' group. But what do we need to be "special"?

Our footprint is represented not only by the identity's features (male, female, black, white ...), but also by our life-style.

THE AUTHORS

Domenico Barrilà is a psychotherapist and adlerian analyst. He has always written to let adults help children to grow. This is his first time in writing directly to children: this is the result of 25 years spent in studying the subject, through essays, books, articles, 3 sons and a huge amount/personal passion.

Emanuela Bussolati is one of the most appreciated authors and illustrators of children books. At the moment, she's working for several publishing houses in Italy and abroad (such as France, UK, Greece, Germany, Korea, and so on).
