

THE SERIES

GROWING WITH NO COLLATERAL EFFECTS

by Domenico Barrilà

There is always someone younger than us. We can bear all this. But most people seem to be older than us. We can hardly bear all this: it makes us feel inadequate and fearful. This new series wants to make children self-confident, in order to get keys to go over doubts and failures. A sort of how-to-guide to let children grow as a fair part of civil consciousness and adults community.

THE BOOK

This is the latest title from the successful series about children psychology. It helps children (and parents) to discover the hidden sides of their feelings and emotions: feelings and emotions make us grow wiser and help us to find the right distance to build relationships. The instrument to measure all this is our heart: don't mind if you can't do this: you can learn it right now!
