RULBA RULBA!

THE BOOK

Piripù Bibi always lingers observing things around: animals, flowers, rocks... But he'd better hurry to learn what adults are already able to do. This time though, his curiosity and imagination will be very useful and Piripù Bibi will save the whole family!

THE AUTHOR

Project devised and created by **Emanuela Bussolati**. She is a very appreciated author and illustrator for children books. She has published for different publishing houses for children.

In the same Series:
TARARÌ TARARERA and BADABÙM!

Series: The Piripù's Library

The series tells the adventures of little Piripù Bibi. Simple stories told in a fantasy language: a happy sequence of sounds that invites the adult reader to play around with the intonations of the voice, facial expressions and body movements... and thus create a playful and cheerful complicity.

THE MAGIC OF STORY-TELLING WITHOUT WORDS...
