

LEARNING TO DREAM

Through little stories of wishes,
dreams become reality

(**IMPARO A SOGNARE** attraverso piccole storie di desideri diventati realtà)

Five stories about wishes that can come true, five stories to learn to dream. This collection has been realized in collaboration with an association whose aim is to realize dreams of little patients in hospital. The stories intend to stir quality dreams able to let the children go beyond dreams induced by mass media. And, if possible, to let them be realized.

At the end of the book some pages are provided where the children can tell of their own dreams.

32 page volume

Size: 16 x 23 cm
